PROFESSIONAL SUMMARY

Motivated Computer Science fresher with hands-on experience building full-stack web applications using the MERN stack. Proficient in Java, JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in building REST APIs, working with databases, and deploying applications. Participated in hackathons and completed industry-recognized certifications. Eager to contribute to a development team in an entry-level software developer role.

EDUCATION

St. Martin's Engineering College, Hyderabad (JNTUH) Nov 2022 – May 2026
B.Tech – Computer Science and Engineering | **CGPA: 8.25 / 10**

Deeksha Junior College, Hyderabad Jun 2020 – May 2022
Intermediate (MPC) | **Percentage: 87.6%**

St. Andrews School (CBSE), Hyderabad Jun 2019 – May 2020
10th Grade | **Percentage: 75.2%**

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML, CSS, SQL
Frameworks: React.js, Node.js, Express.js, Bootstrap
Database: MongoDB, MySQL
Tools: Git, GitHub, VS Code
Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

ResQNet – Real-Time Emergency Response Coordination System Jan 2026 – May 2026
MERN Stack | Socket.IO | Team Project | B.Tech Final Year Project

- Developed a real-time emergency coordination platform where users can report incidents and responders can be dispatched live using Socket.IO.
- Built REST APIs for incident and user management with role-based access (Admin / Responder); led the React.js frontend with live dashboards.
- Used MongoDB for data storage and structured the backend with Express.js and Node.js following MVC pattern.

Logistics & Delivery Management System Mar 2025 – Present
MERN Stack | JWT Auth | Vercel + Render + MongoDB Atlas

- Built a full-stack delivery management app with order tracking, driver assignment, and an admin dashboard using the MERN stack.
- Implemented JWT-based login with three roles: Customer, Driver, and Admin, each with separate access and views.
- Deployed frontend on Vercel and backend on Render with MongoDB Atlas as the database — fully free hosting stack.

HACKATHONS

Code Fusion Hackathon – Loyola College | 4th Place 2024
Won fourth place by building a MERN stack web application within the deadline; handled both frontend and backend development.

Fountane Student Tribe Hackathon. 2025
Collaborated in a team to build and present a web-based solution; contributed to frontend development and final presentation.

CERTIFICATIONS

- NPTEL – Programming in Java (Elite Category) | IIT
- NxtWave – Developer Foundations: Git & GitHub, Programming with Python, Introduction to Databases
